Southwest Plastic Surgery was founded by a team of Award Winning Board Certified Plastic Surgeons and is distinguished by the highest quality of personalized service, commitment to safety and patient confidentiality, and superior results that encompass the entire body. Southwest Plastic Surgery offers you an outstanding experience from the very moment we welcome you into our facilities and throughout the entire span of your care. Southwest Plastic Surgery serves the entire Southwest, including El Paso, Western Texas, New Mexico, Chihuahua and Juarez. Dr. Agullo and Dr. Palladino, with their team of health care professionals, provide services in English and Spanish reflecting the international nature of the practice and patients. Our practice is committed to specialized care and compassion; every member of our team adheres to a philosophy of individualized patient service. Tailored care at Southwest Plastic Surgery begins with a full consultation between physician and patient to discuss goals, options, and procedures. This personalized approach ensures our patients are informed and confident with their

personal medical decisions and optimizes the final outcomes.

### ***About The Practice***

Our specialized services are as individual as the patients we serve. Offering a wide range of treatments and procedures spanning from topical treatments, minimally invasive procedures, novel approaches such as protein rich plasma, to full body and facial enhancement techniques. Southwest Plastic Surgery even offers the latest techniques in hair transplantation for men and women. We are committed to deliver the highest level of care, service and technology. Join us to explore the possibilities to renew, revive and restore yourself today.

**Outpatient Surgery Center**

The comfort and safety of our patients is a vital part of the services that we offer at Southwest Plastic Surgery. Our outpatient surgery center is accredited by the American Association for Accreditation of Ambulatory Surgery Facilities, Inc. (AAAASF.)

At the Southwest Plastic Surgery Outpatient Surgery Center, you can count on the latest technologies, state of the art facilities, and utmost privacy. You will experience service and luxury beyond what you can imagine.

Only clinics that have been thoroughly inspected by the AAAASF and meet 100% of their safety standards are qualified for accreditation. As such, Southwest Plastic Surgery, Dr. Agullo, Dr. Palladino, and our entire cosmetic surgery team can ensure the highest standard of quality care to our patients and their families.

***State of the Art Facilities. State of the Art Care.***

Because we implement the use of general anesthesia and IV sedation in our practice, AAAASF accreditation gives our patients the assurance that they are in the best hands possible for any plastic surgery procedure.

Our modern facility bridges the gap between outpatient surgery centers, hospital settings, and the care that you deserve. We are able to perform many procedures right here in our office, which meets the standard of care for an ambulatory surgical center. Not only is this more convenient, but it makes your care safer and more affordable than ever before.

As certified AAAASF providers, Dr. Agullo and Dr. Palladino have proven that they are experts in their field. Come and experience a first class plastic surgery service, the best of the Southwest.
